INCLUSIONS

- Pick-up from any accommodation or railway station in the upper Blue Mountains.*
- Use of scope and field guides.
- Bird checklist covering the areas we visit.
- Tea, coffee and snack.

* For Sydney pick-up, add \$200 one way, or pick-up and return \$350 (on the day of guiding).

TIMES

The timing and itinerary are tailored to the client's requirements. We normally take advantage of the best times for watching birds by starting at sunrise and continuing until sunset whenever possible. As the summer days are long we may have a couple of hours rest/free time in the middle of the day.

It is also possible to start a full day from the middle of the day (e.g. 1pm) and finish the same time the following day. This can be of benefit for example when an overnight stay in the Capertee Valley is required and may allow dawn and dusk to be spent in the valley, or if the client would find a full day too tiring.

For morning or half day options a dawn start is recommended.

MEALS

Lunch and other meals are not included in the fee and we usually buy take-away to eat at one of our birding sites or dine in one of the many excellent cafes in the Blue Mountains (according to client preference). In the case of a full day in Capertee Valley all food needs to be brought with us as there are no shops or restaurants in the valley (this will be discussed with you beforehand).

For trips lasting longer than one day the guide's meals and accommodation are to be covered by the client (except in the Blue Mountains).

All prices are in Australian dollars. Fees may apply for payment in foreign currency.
